

Green Management and Sustainability

Sustainability Policy

Best Western Premier Blunsdon House Hotel (BHH) is committed to promoting sustainability. Concern for the environment, community and promoting a broader sustainability agenda are integral to our professional activities and the management of the organisation.

We aim to follow and to promote good sustainability practice, to reduce the environmental impacts of all our activities and to help our clients and partners to do the same.

Principles

Our Sustainability Policy is based upon the following “core” principles:

- To comply with, and where practicable exceed, existing relevant environmental legislation.
- To integrate sustainability considerations into our business decisions and seek to continually improve the sustainability of our operation as it grows and develops.
- To substantiate our sustainability agenda and not to mislead or make excessive “green” claims to our supply partners and customers.
- To ensure that our staff and management are fully aware and committed to sustainability policy. And to appoint and maintain an effective management lead “green team”.
- To regularly review, report and continually improve our commitment to sustainable operations.
